Maximise Your Research Impact
10am - 11.30am, Room: 4.k

Measuring and describing the quality or impact of your research is becoming increasingly important in Australian and international academic communities. Research impact plays a big role in grant applications, career development opportunities and the university’s rankings.

This workshop provides both a broad overview of the principles behind research impact, as well as opportunities for hands-on practice in applying these principles to your discipline.

Create Your Research Profile
12.30 - 2pm, Room: 4.j & 4.l

Researcher profiles are online identity tools that make it easy for funders, collaborators and colleagues to find you and your work. They also ensure your work is properly attributed, removing author ambiguity, so that you can fully showcase the impact your work has had.

Where Should I Publish?
2.30 - 4pm, Room: 4.j & 4.l

This workshop will show you how to find and use a range of journal ranking tools to publish more strategically.

Learning.Futures - Stories from the Faculties
10am - 11.30am, Room: 4.k

Presented by IML staff. Learn about Learning.Futures compliance and what amazing, innovative and different approaches are being implemented across the campus.

To be followed by a short session: Mythbusting the Academic Calendar 2016. Aims to gain an understanding of what the new calendar changes mean, and what they don’t mean!

Video Workshop Presented by IML's Learning Design Team
12.30 - 2pm, Room: 4.j

Aims to give a hands-on experience of creating different types of video for varying purposes. Starting with the basics, this flipped, hands-on workshop will introduce participants to the requirements of making videos for educational purposes.

Finding and Clipping Video Resources
2.30 - 4pm, Room: 4.j

Aims to introduce sources of video materials that can be used in teaching. May of these materials can be “clipped” into short extracts and created playlists. The Library has access to large collections of streaming videos that can be clipped into short extracts. This hands-on workshop will showcase these multidisciplinary materials for use in teaching. It is particularly relevant to Flipped Learning.

Light lunch and refreshments will be provided at all the workshops.
