HOW ARE NATURAL DISASTERS, GREEN BUILDING & UTS CONNECTED?
Post-Traumatic Urbanism – the rebuilding of a (better) city following a natural disaster

What’s it about?

UTS Library and UTS Green warmly invites you to attend this inaugural event. Share your thoughts in a discussion on what you think governments need to reconsider as part of their urban planning solutions to ensure the long-term livelihood of our cities.

Who’s talking?

ADRIAN LAHOUD
Senior Lecturer and Course Director of the Master of Advanced Architecture in Urban Design Faculty of Design, Architecture and Building

Adrian Lahoud will answer the question - How does society and government look at rebuilding cities following devastation from a natural disaster?

MARA BUN
CEO, Green Cross Australia

Mara Bun will introduce Green Cross Australia and their Build it Back Green program. Provide a history of the organisation and a discussion on their current activities.

MAL BOOTH
Acting University Librarian

Mal Booth will discuss the UTS Library of the Future and Sustainability and the Green Star requirements.

When

Wednesday, 10 August 2011
1.00pm to 2.00pm

Where

Level 3
City Campus (Blake Library)
Cnr Quay St & Ultimo Rd
Haymarket

Moderator
Eleanor Glenn
PhD researcher at the UTS Institute for Sustainable Future.
