

## Instructions for installing EndNote and Harvard (UTS)

### Downloading and installing EndNote software

1. EndNote is a [free download from the Library website](#) (referencing>EndNote>download EndNote).
2. Accept the terms and conditions and hit the 'windows' link on the following page.
3. Click on the [ITD EndNote download site link](#) (you need to scroll down a bit to see it). You will be asked to log on with your UTS username and password.
4. Click on the windows heading, then click on the file called EndNoteX8.zip

```

12/16/2016 11:21 AM      90189512 EndNoteX8.zip
11/22/2016 11:29 AM      92912640 ENX8Inst.msi
12/16/2016 11:25 AM           242 Install Method.txt
11/29/2016 11:21 AM           762 License.dat

```

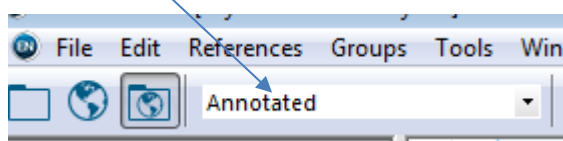

5. Save the file to your desktop.
6. Right click on the file and unzip it. This will create a new folder.
7. Open the unzipped folder and click on the 'EndNoteX8inst' file.

| Name  | Type                      |
|---|---------------------------|
|  ENX8Inst    | Windows Installer Package |
|  License.dat | DAT File                  |

8. An install wizard should open and guide you through the rest of the process.

### Downloading the Harvard UTS referencing style

- From the EndNote page on the library website choose download EndNote.
- Accept the terms and conditions then hit the 'Harvard UTS style' link on the following page.
- Click on the 'Harvard (UTS) Style' hyperlink. When you click this link choose 'open' if you are using IE or click on the downloaded file if you are using Firefox or Chrome.
- Now, in EndNote, go to the styles drop down folder and choose 'select another style.'

- Find Harvard UTS from the list in the pop up window and click on it (it should turn blue). Then press 'choose'.
